WOULD RECONSTRUCT BUSSIA

Paris, Murch 19 (By the A. P.).—The expense who arrived in London tonight to represent France at a conference preliminary to the Genon gathering will advocate a plan for reconstructing Russia largely from within Russia. This plan as fair as a known, is based on the principle that Russia must not be drained of her products on her capital, either in golf or in jewels, to pay for the flood of necessary merchandise, but must be inleged to reorganize through foreign and given directly to various industries in selected districts, without placing capital at the disposition of the soviet.

The French experts hold that special rights for foreigners and the protection of their property cannot be instituted throughout Russia but only in certain regions of the country, which it is suggested should be from Archangel to Batum, but including the Donetz Don, Kuban, Caucasus and Bral territories. It is reported that under the influence of Premier Poincare in a superior capital and the protection of the property cannot be instituted throughout Russia but only in certain regions of the country, which it is suggested should be from Archangel to Batum, but including the Donetz Don, Kuban, Caucasus and Bral territories.
